## Triangle - Finding Base or Height

Find the base or height of each triangle.

$$
\begin{aligned}
\text { Area } & =252 \mathrm{~m}^{2} \\
\text { Height } & =\ldots . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . ~
\end{aligned}
$$

4) 

7)

$$
\text { Area }=20 \mathrm{~m}^{2}
$$

$$
\text { Height }=
$$

$$
\begin{aligned}
& \text { Area }=40 \mathrm{ft}^{2} \\
& \text { Base }=
\end{aligned}
$$

2) 

Area $=133 \mathrm{~cm}^{2}$
Base $=$
5)

$$
\text { Area }=26 \mathrm{yd}^{2}
$$

$$
\text { Height }=\ldots \ldots \ldots
$$

8) 

$$
\text { Area }=120 \mathrm{ft}^{2}
$$

Base $=\cdots \cdots$
3)

Area $=170 \mathrm{in}^{2}$
Height $=\cdots \cdots \cdots \cdots \cdots$
6)

$$
\text { Area }=250 \mathrm{~cm}^{2}
$$

$$
\text { Base }=
$$

9) 

$$
\begin{aligned}
& \text { Area }=126 \mathrm{in}^{2} \\
& \text { Height }=\cdots \cdots
\end{aligned}
$$
